

# TRANSFORM YOUR BUSINESS: ENVIRONMENTAL SUSTAINABILITY THROUGH GREEN COMPASS

Green Compass is a sustainability assessment tool that enables businesses to understand their state of environmental sustainability and develop their sustainability transformation pathways in the following dimensions:

## GREEN COMPASS TRANSFORMATION JOURNEY

Sample of dimensions

Sample of questions

Sample of results

## WHY SUSTAINABILITY?

- 1** Reduces business costs by improving resource efficiency.
- 2** Enhances a company's brand reputation and secures future earnings through stakeholder loyalty and advocacy.
- 3** Be Future-Ready for sustainability-oriented regulations and industry trends.
